OSCAR ANWAR

3D Artist · Character & Environment · Technical / Game Artist

zamrart@yahoo.com · +60 11-7013-2752 · artstation.com/zamrart · linkedin.com/in/zamrart

SUMMARY

3D artist with 6+ years across games, AR, digital collectibles, and cinematic CGI. Specialized in character & creature sculpting, stylized and hard-surface environments, with full end-to-end ownership — concept and sculpt through retopology, UV, PBR texturing, lighting, rendering, and real-time integration in Unity and Unreal. Lead and technical-art experience directing small teams and outsource artists. Fluent in Maya, Blender, ZBrush, Substance Painter, and Marvelous Designer.

EXPERIENCE

3D Artist — Freelance (Self-Employed) | Remote *Jan 2020 – Present*

- Deliver end-to-end 3D for studios and direct clients across characters, environments, props, and hard-surface — translating concept and brief into production-ready, visually polished assets.
- Own the full pipeline: blockout, sculpting, retopology, UV mapping, texturing, lighting, and rendering, adapting to each client's engine and style requirements.

Lead 3D & Technical Artist | Torum Technology Sdn. Bhd. — Kuala Lumpur *Oct 2023 – Sep 2024*

- Led R&D and workflow design for a new AR application built around interactive, real-time face filters for a crypto-user audience.
- Produced and implemented all 3D art in Unity — modeling, texturing, blendshapes, shaders, lighting, and post-processing — under tight real-time performance budgets.
- Directed and quality-checked outsourced artists, setting standards and giving feedback to keep deliverables consistent.
- Partnered with the engineering team on optimization, tooling, and pipeline decisions; produced hero 3D renders for marketing and the company website.

Game Director / 3D Artist | Good Place Games OÜ — Remote *Jan 2022 – Jun 2023*

- Sole 3D artist in a 6-person indie team, owning all game art: environments, characters, shaders, textures, and VFX.
- Built UI/UX elements and contributed to game mechanics for a cohesive player experience; led art planning and technical-art workflows to maximize a small team's output.

3D Character Artist (Team Lead) | CYBERDOGZ.io — Remote *Aug 2021 – Jul 2022*

- Created 3D characters for the CYBERDOGZ NFT collection from concept to final render.
- Led a team across the full character pipeline — sculpting, modeling, retopology, UV, texturing, lighting, rendering, compositing — with documented breakdowns, milestones, and schedules to hit delivery dates.

3D Character Artist | Popcorn Marketing — Kuala Lumpur *Jul 2022 – Sep 2022*

- Turned stylized ANT concept art for an NFT project into optimized, rig-ready 3D — building a base model used to spin off multiple character variations.

3D Artist | Smart Business Services — Cairo *Sep 2020 – Aug 2021*

- Produced 3D assets and motion graphics for a pitch to ROTANA Studios, working alongside the art director, motion designer, and senior graphic designer.
- Owned end-to-end 3D production — storyboarding, modeling, animation, simulation, texturing, lighting, VFX, and final rendering.

Graphic Designer | Arai for Advertisement & PR — Riyadh *Sep 2015 – Feb 2017*

- Created branding, logos, motion graphics, and print collateral aligned to client goals across a range of projects.

SKILLS

Software: Maya · Blender · ZBrush · Substance Painter · Marvelous Designer · Character Creator · Unity · Unreal Engine · Adobe Creative Suite

Technical: Modeling · Digital Sculpting · Hard-Surface · Retopology · UV Mapping · PBR Texturing · Lighting · Rendering · Shader Development · Grooming · VFX · Rigging · Blendshapes · AR / Real-Time · UI/UX

Artistic: Character & Environment Design · Concept Realization · Stylized & Realistic · Art Direction · Storyboarding

Leadership: Pipeline & Workflow Management · Team Leadership · Outsource Direction · Project Planning · Client Collaboration

EDUCATION & LANGUAGES

Diploma in Digital Animation & Game Arts | The One Academy · *2019 – 2022*

Languages: English (fluent) · Arabic (native)
